## EDITORIAL

At the beginning of a new year, most of us are thinking about what we want to do over the coming months, what is important to us, and if we want to achieve something in particular.

What we don't realise is that things can change so quickly and then we won't know what to do. For example, we can be in an accident, suffer ill-health or lose our jobs. At the start of the year, we may think that that we have twelve months to achieve something and don't have to do anything now, but that is wrong. Start right at the beginning and make the most of every day.

I am in charge of the tutorials and I know that many learners are not attending extra lessons. They believe that they "don't need it now". This is a mistake – if you want to get a distinction at the end of the year, you have to work right from the beginning. Parents: please encourage your children to attend afternoon tutorials. They should make use of every opportunity to improve their marks, and get a distinction for the first test, instead of a mark in the sixties or just settling for a pass.

Learners: please come to the extra lessons and let us help you to do better!

Good luck for this year and may you all achieve the goals that you have set for yourselves.

Mrs. S.S.Bezuidenhout  
HOD Afrikaans

## A NOTE TO OUR PARENTS

One of the school's projects is to feed the sterilised feral cats that live on the school property and which help to keep our premises free of rodents. We would appreciate any donations of tinned or dry food. Donations may be handed in at the front office. Thank you to those parents who help us feed these cats. All contributions are gratefully accepted.
